

The image features a dark blue background with a central white rectangular box containing the text 'MOONI' and 'WHITEPAPER'. The text is in a bold, sans-serif font. The box is surrounded by several thin, white, abstract geometric lines that radiate outwards, creating a sense of movement and depth. The lines are composed of straight segments and sharp angles, resembling a stylized starburst or a network diagram.

# WHAT IS MOONI DEFI

Mooni DeFi is an incubator made on the basis of Binance Smart Chain, where the community is rewarded with tokens through an ecosystem. The goal is to provide a fairer and safer environment for the community. Mooni is also the governance token of the platform.

## IMPORTANCE OF COMMUNITY

If a community is well maintained and constantly expanded, this can result in a trusting relationship between the target group and the brand, which can lay the foundation for loyal and stable repeat customers. Communities can also provide for an exchange, e.g. about certain product features, and thus develop interested parties into customers.

That's why Mooni rewards you

## NFT AND MOONI

Mooni DeFi allows users to easily deposit BEP20 tokens (ANY tokens) into an NFT mint, trade and market place. \$Mooni token is the governance token of the platform. NFT's (non-fungible tokens) are a special type of cryptographic token which represents something unique; non-fungible tokens are thus not mutually interchangeable. Mooni DeFi Dapp will be able to mint your own NFT and trade it, you will be able to perform your art and put it in marketplace. We're doing this to ensure safety for users on the platform. Users can mint their own NFTs or choose to purchase others.

## BURN AND REWARD

Token burning will be carried out in the first times. This is necessary so that the team can reward the community accordingly. The terms and burn amounts can and will be published for the community. MOONI is based on implementing a rewarding burn strategy for stakeholders. For transparency, you can view the burned tokens on our website, this also serves to determine the amount in circulation.

# TOKENOMICS

1.000.000.000.000.000

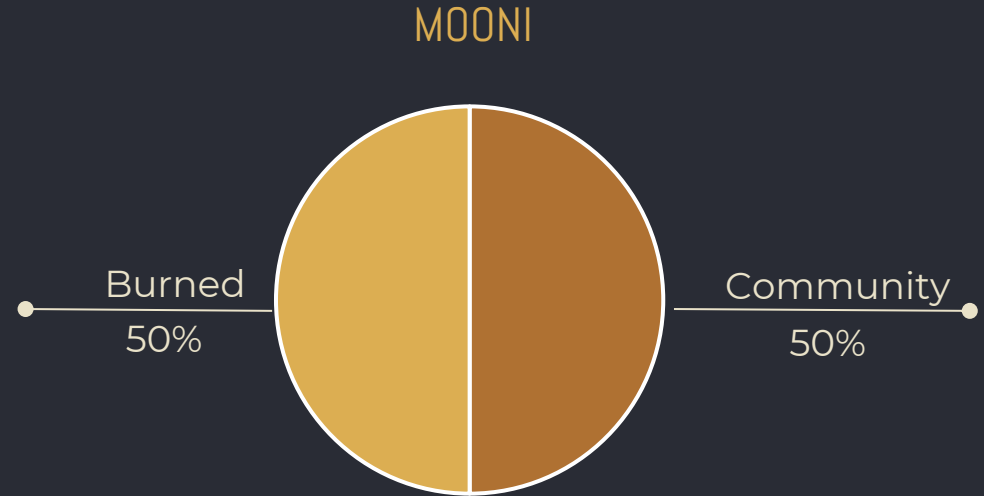

Total Supply

500.000.000.000.000

DEV/TEAM Burned Supply

500.000.000.000.000

Community Supply

# TRANSACTION FEATURES

## Passive Income

4% of every transaction  
redistributed to holders.  
Earn yield by just holding!

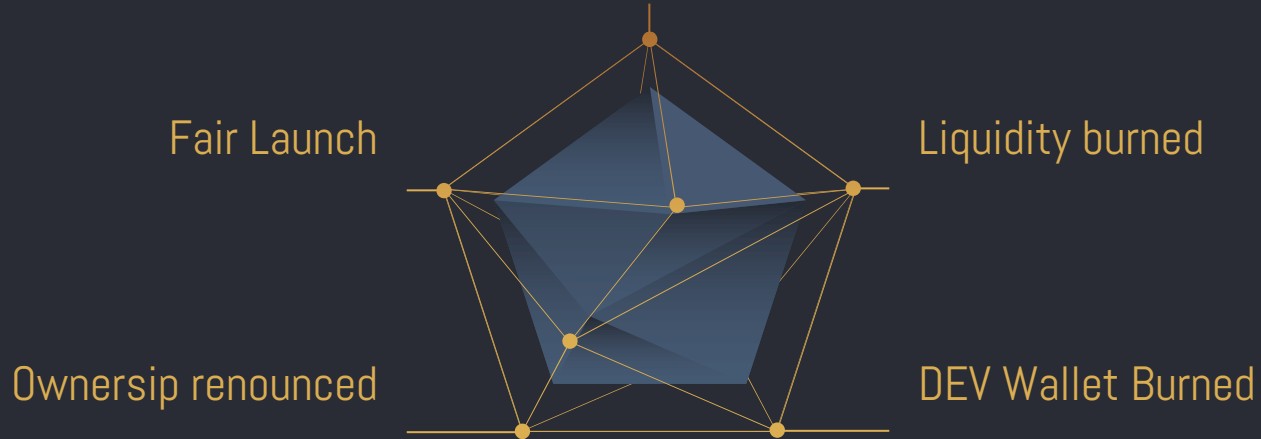

## Automatic LP

After each transaction, the  
4% is automatically added  
to LP. That is why the LP  
increases automatically.

# SAFETY

Owned by the Community

### P1

- Brainstorm
- Team gathering
- Investment

### P3

- NFT Token
- Whitelist + Presale
- Launching NFT Token
- Starting NFT development
- Launching NFT minting marketplace
